NEW - 99% Cracker Selection box low fat biscuits for cheese

Rakusen's have now launched the first low fat cracker selection box into the market.

The 150g box contains four different crackers: Cheese Flavoured Snackers, Herb and Onion, Oat and Wheat and Plain Crackers.

The crackers are not just low in fat but also have the other benefits of

- ✓ Dairy free
- ✓ Lactose free
- ✓ Nut free
- ✓ Suitable for vegetarians
- ✓ Source of fibre
- ✓ Low in sugar
- ✓ Low in saturates

So they have all-round health benefits and not just for the weight watchers.

The "chocolate box" opening lends itself to easy access to the product, along with the strong packaging design gives the product real shelf appeal.

This pack weight is convenient for a single serving at a dinner party or for the cracker connoisseur who likes a selection of crackers with their cheese.

NOW AVAILABLE

The Cracker Selection Box is available in Morrison's, who are running it on promotion until 3rd January 2010.
